Sunbrella® is a registered trademark of Glen Raven, Inc. 322112

sunbrella®

Sunbrella® shade fabrics do more than just look good. Durability, sun protection and fade resistance are engineered into each solution-dyed acrylic fiber, so shade products made with Sunbrella fabrics last longer.

UV / Fade Resistant

Sunbrella fibers are saturated with highly UV stable pigments. Traditional dyeing methods only add color to the fiber exterior. Sunbrella fabrics' performance characteristics are an integral part of the fabric, not an applied finish that would wash off over time.

Mold / Mildew Resistant

Sunbrella fabrics inherently resist the growth of mold and mildew. To keep your fabrics looking clean, brush off dirt and debris before it gets embedded in the fabric.

Bleach Cleanable

To easily remove tough stains, simply clean Sunbrella fabrics with a bleach solution. Because the color goes to the core of the fiber, the fabrics will not lose their color.

Breathable Comfort

Sunbrella shade fabrics are breathable and allow air to pass through them, creating a comfortable space below.

10 YEAR LIMITED WARRANTY

We stand behind our fabrics with an industry-leading guarantee: a 10-year limited warranty for shade and marine fabrics.

sunbrella.com/warranty

RECOMMENDED SKIN CANCER FOUNDATION

The Skin Cancer Foundation recommends certain Sunbrella fabrics in shading products as part of a complete sun protection regimen, including regular use of sunscreen, to aid in preventing sun-induced skin damage.
