

Tradewinds - a brand name in parasols synonymous with superior quality and exceptional styling - these parasols provide the perfect shade investment for any patio, barbeque area, poolside or garden.

The frame of the Classic parasol is made from hard-wearing eucalyptus hardwood that has been harvested from renewable resources. Assembled and finished with stainless steel fittings for high durability; Tradewinds Classic parasols are suitable for use in extreme climatic conditions.

Canopies are available in a wide range of colours to complement any outside area. All fabric options are naturally resistant to rotting and mildew, acids and alkalis and in addition, are Teflon treated to provide water, oil and soil protection.

- HARVESTED FROM RENEWABLE SOURCES
- QUALITY INVESTMENT DESIGNED TO LAST
- WIDE RANGE OF COLOUR OPTIONS
- STYLISH SHADE SOLUTION

SIZES

Size (m)	Shape	Diameter Pole (mm)	Number of Struts	Total Height (mm)	Clearance Head (mm)	Clearance Closed (mm)	Parasol Weight (kg)	Min. Base Weight (kg)
1.9	Square	38	4	2660	1920	1180	10	25

2.0 x 3.0	Rectangle	48	6	2670	1960	735	15	40

FRAMES

Tradewinds wooden parasol frames are manufactured from Eucalyptus wood, which is particularly suitable for parasols due to its strength and straightness of grain. Stylish handcrafted poles and hubs are laminated to give additional strength and durability.

Tradewinds parasol frames are assembled with stainless steel brackets and bolts to allow for the easy installation of new component parts, should there be any breakages or damage at any stage throughout the parasol's lifespan.

CANOPIES

Long lasting, durable canopies are woven from Teflon coated solution dyed polyester featuring a three year anti-fade warranty. All pockets are reinforced with heavy duty PVC. A large air vent is designed to provide additional stability in windy conditions. Canopies are easily removable and 100% washable.

NOTE: Colours shown here offer an approximation of their actual real-life counterparts, as screen and print settings on different computers cannot accurately reproduce some colour values.
